

OCFlightPlan — System Features

Epic user story

As a student, **when** I want to do activities that prepare me to get a job when I graduate, **I want** a checklist of tasks and events I can do each semester I am in school **so that** I am prepared to successfully apply for a job.

Product decisions

These choices shape the features below:

Decision	Choice
Who uses the system	Students, teachers, faculty, admins, and career advisors
How the checklist is split	By class year (first-year, sophomore, junior, senior), not one combined list
What is on a year's checklist	A general checklist for every student in that year, plus major-specific objectives for the student's major

Roles

Role	Who they are	What they do in OCFlightPlan
Student	The person working the flight plan	Completes this year's general tasks, major-specific objectives, and related events so they can apply for a job
Career advisor	Career services staff	Owns the general year checklists and career events; reviews student progress and advises
Faculty	Program / department instructors	Own major-specific objectives by year; review progress for students in that major

Teacher	Course instructors	See progress for students in their classes and point them to the right year's tasks and events
Admin	System administrator	Manages accounts, roles, and the current academic year

Feature 1: Year-based checklist (general + major)

The student sees **one checklist for their current class year**. That year is split into:

1. **General checklist** — same for every student in that year
2. **Major-specific objectives** — only for their declared major

First-year, sophomore, junior, and senior lists are separate.

User stories

- **US-1.1** As a student, I want to open the checklist for my current class year so that I work only the tasks meant for this year of school.
- **US-1.2** As a student, I want first-year, sophomore, junior, and senior checklists kept separate so that I do not mix other years' work with this year's.
- **US-1.3** As a student, I want the general checklist and my major-specific objectives shown as two sections on my year's page so that I can tell school-wide tasks from major requirements.
- **US-1.4** As a first-year student, I want a first-year general checklist (for example explore options, join campus activities, start a basic resume) so that I begin job prep early.
- **US-1.5** As a sophomore, I want a sophomore general checklist so that I build skills and experience before internships.
- **US-1.6** As a junior, I want a junior general checklist focused on internships and career events so that I gain experience before graduation.
- **US-1.7** As a senior, I want a senior general checklist focused on applying for jobs so that I can apply successfully before I graduate.
- **US-1.8** As a student with a declared major, I want to see and check off this year's major-specific objectives so that I complete program-specific job-prep work.
- **US-1.9** As a student, I want each item to include a short description and why it matters so that I understand how it helps me get a job.
- **US-1.10** As a student, I want my checklist to switch when my class year changes so that I start the next year's list instead of staying on last year's.

Feature 2: Task and objective completion

The student marks general tasks and major-specific objectives as done and can see remaining work for **this year**.

User stories

- **US-2.1** As a student, I want to check off general tasks and major-specific objectives I have completed so that I can keep track of what is left this year.
- **US-2.2** As a student, I want to uncheck an item if I marked it done by mistake so that my checklist stays accurate.
- **US-2.3** As a student, I want to see progress for this year's general checklist and major-specific objectives separately so that I know if I am behind on either part.
- **US-2.4** As a student, I want completed items to stay saved when I leave and come back so that I do not lose my progress.

Feature 3: Events and campus activities

The student can find career-related events (career fairs, workshops, employer visits, mock interviews) that fit their year and count toward the checklist.

User stories

- **US-3.1** As a student, I want to see upcoming career events that fit my class year so that I can attend activities that help me get hired.
- **US-3.2** As a student, I want event details (date, time, location, and what to bring) so that I can show up prepared.
- **US-3.3** As a student, I want to mark that I attended an event so that it can count toward this year's checklist.
- **US-3.4** As a student, I want to filter events by type (career fair, workshop, info session) so that I can find activities that match my goals.

Feature 4: Job-application readiness

The student can see whether they are ready to apply, based on this year's general tasks and major-specific objectives—not only a raw list of boxes.

User stories

- **US-4.1** As a student, I want a simple readiness summary that includes both general tasks and major-specific objectives so that I know if I am prepared to apply.

- **US-4.2** As a student, I want to see which high-priority items are still incomplete so that I can finish the work that matters most for applications.
- **US-4.3** As a senior, I want my year's checklist to include application steps (resume, cover letter, references, practice interviews) so that I do not miss them before I graduate.

Feature 5: Student account and profile

The student has an account so class year, major, and progress belong to them.

User stories

- **US-5.1** As a student, I want to create an account and sign in so that my checklist is private and saved to me.
- **US-5.2** As a student, I want to set my class year (first-year, sophomore, junior, or senior) so that I get the correct year's checklist.
- **US-5.3** As a student, I want to set my expected graduation term so that staff and I share the same timeline.
- **US-5.4** As a student, I want to set or change my major so that the correct major-specific objectives appear for my year.
- **US-5.5** As a student, I want major-specific objectives to update if I change majors so that I am not stuck with the old program's list.

Feature 6: Publishing checklists and events (staff)

Career advisors maintain the **general** checklist and events **for each class year**. Faculty maintain **major-specific objectives** for their major, also **by class year**.

User stories

- **US-6.1** As a career advisor, I want to add, edit, and remove general tasks for a chosen class year so that each year has its own current school-wide plan.
- **US-6.2** As a career advisor, I want to mark a general task as required or optional so that students know what is essential for job readiness.
- **US-6.3** As a career advisor, I want to publish career events (date, time, location, type, and which class years they apply to) so that students can find activities to attend.
- **US-6.4** As a career advisor, I want to attach an event to a checklist item so that attending can count as completing that item.
- **US-6.5** As a faculty member, I want to add, edit, and remove major-specific objectives for my major by class year so that students in that program get relevant work for their year.

- **US-6.6** As a teacher, I want to view the published year checklists and events so that I can point my class to the right tasks.

Feature 7: Progress for advisors, faculty, and teachers

Staff can see whether students are completing this year's general checklist and major-specific objectives so they can help before graduation.

User stories

- **US-7.1** As a career advisor, I want to view a student's year, general progress, and major-specific progress so that I can advise them on what to do next.
- **US-7.2** As a career advisor, I want a list of students who are behind on their year's checklist so that I can reach out before they fall further off track.
- **US-7.3** As a faculty member, I want to see how students in my major are doing on this year's major-specific objectives so that I can support my program's students.
- **US-7.4** As a teacher, I want to see progress for students in my classes (this year's general and major-specific items) so that I can remind them about career-prep tasks and events.
- **US-7.5** As a student, I want only authorized staff (career advisors, faculty, teachers, admins) to see my progress so that my checklist stays reasonably private.

Feature 8: Administration

Admins keep accounts, roles, and the current academic year correct.

User stories

- **US-8.1** As an admin, I want to create and deactivate user accounts so that only current OC students and staff can use the system.
- **US-8.2** As an admin, I want to assign roles (student, career advisor, faculty, teacher, admin) so that people only get the access they need.
- **US-8.3** As an admin, I want to set the current academic year so that students are pointed at the right year's checklist.
- **US-8.4** As an admin, I want to restore access if someone is locked out so that students and staff are not blocked from the flight plan.

Traceability

Feature	Supports the epic by...
---------	-------------------------

Year-based checklist (general + major)	Giving a checklist for each year of school, with school-wide and major items
Task and objective completion	Letting the student check off work and see what is left
Events and campus activities	Connecting the checklist to real events they can do while in school
Job-application readiness	Focusing effort on being ready to apply successfully
Student account and profile	Saving class year, major, and progress to the student
Publishing checklists and events	Letting career advisors and faculty keep each year's plan current
Progress for advisors, faculty, and teachers	Letting staff help students stay ready to apply
Administration	Keeping accounts, roles, and the current year correct
